2. Management Performance and Term Performance

2.1 Overview

Established on 12 December 2002, MKIF is a leading private sector infrastructure investor in Korea under the PPI Act and governed by the Act. MKIF is mandated to invest in concession companies that construct or operate infrastructure assets through equity and debt. MKIF is focused on generating profits from its investments and distributing these profits to its shareholders. As of 30 June 2021, MKIF has committed to invest in 12 toll roads, 1 light rail transit, 1 port and 2 city gas retail distributors with a total investment commitment of KRW 2,169.8 billion. On 15 June 2021, MKIF signed the SPA to acquire 100% of equity stake in Haeyang Energy Co., Ltd. and Sorabol City Gas Co., Ltd. which are city gas retail distributors through investment vehicles respectively. The investment completed on 12 July 2021.

2.2 Management plan

MKIF is focusing on investments in loans to, and unlisted equity of, concession companies that operate infrastructure assets under concessions from Korean central, provincial or city governments throughout the country.

Target assets for infrastructure investment in Korea have historically been concessionaires operating toll roads, bridges, and tunnels, etc. Target portfolio company is an entity conducting facilities projects defined under Article 2 Sub-paragraph 1 of the PPI Act.

MKIF is to invest in entities that develop and/or operate Infrastructure Assets and to target to generate stable returns to our shareholders through capital growth and cash distribution.

2.3 Management performance

The table below sets out the historical NAV (including the distribution paid) for MKIF. As explained above and given that the majority of MKIF's assets are held at their acquisition cost, the net asset value is not representative of changes in the value of the MKIF portfolio.

A. Short-term performance

(Unit: %)

Type	3 Months	6 Months	9 Months	12 Months
MKIF	2.17	3.56	12.78	14.52

※ NAV increase by the follow-on public offering in 4Q 2020 and 3Q 2017 is not reflected in Long-term performance calculation.

2.4 Profit and Loss summary

The table below sets out the profit and loss incurred by MKIF in its P&L during the Quarter, in comparison with any profit and loss from the previous quarter.

(Unit: KRW million, %)

Type	Equity(unlisted)	Loans	Dividend Income	Short-term Facilities & Deposit	Other Assets	Total Profit (Loss)
Q2 2021		55,148	-	63	3	55,214
Q1 2021		53,822	110,350	14	1	164,187

2.5 Environmental, Social and Governance (ESG)

MKAM, as an affiliate of the Macquarie Group (Macquarie) and in a capacity as a manager and corporate director of MKIF, has adopted ESG framework that Macquarie Infrastructure and Real Assets (MIRA) applies to its fund management activities to the extent relevant and possible. MIRA(Macquarie Infrastructure and Real Assets) aims to improve the sustainability performance of portfolio companies by addressing material ESG issues and opportunities to enhance long-term value for our investors. MIRA addresses a broad range of ESG risks and opportunities throughout the entire investment lifecycle from screening and due diligence through to ongoing asset management and exit. We also regularly collect a range of ESG data from portfolio companies, allowing us to track and support improvement of their ESG performance. ESG information is communicated to investors at least annually in fund reports provided to investors, within fund investor presentations and during one-on-one investor meetings. We are committed to continuously improving our ESG performance and look forward to continuing to share our progress with investors.

Macquarie Asset Management (MAM) climate change commitment

As long-term investors in companies that underpin economies and communities, we take our responsibility to address climate change risks seriously. As stewards of these vital businesses, we have a duty to ensure they play their part in global efforts to address our warming planet.

Macquarie Group is supporting the transition to a low carbon economy by progressing a range of initiatives to mitigate climate change and adapt to its effects. On the fifth anniversary of the Paris Agreement, MIRA's parent company, Macquarie Asset Management (MAM), announced a commitment to manage its global portfolio in line with net zero emissions by 2040.

The public commitment articulated our goal to implement Paris-aligned or net zero business plans at each of our fund portfolio companies by the end of 2022. This commitment has several steps that are already underway:

- measure greenhouse gas emissions of all portfolio companies;
- identify pathways to reduce emissions;
- develop business plans that contribute to a net zero economy by 2040, or sooner;
- for new investments, target completion of these steps within 24 months of acquisition;
- work with portfolio companies with the aim that they will be meeting their Paris-aligned/net zero emissions reduction pathways by 2030; and
- report on our progress annually.

This detailed commitment complements extensive activity across the broader Macquarie Group in developing and managing renewable energy projects, helping clients on their decarbonisation pathways, and adapting infrastructure for climate resilience.

We look forward to working with our investors, portfolio companies, regulators and other stakeholders to achieve these transformational objectives for the benefit of all. We remain grateful for these partnerships and we welcome continued engagement as we seek to play our part in building a more sustainable future for everyone.

Please visit [MIRAFunds.com](https://www.mirafunds.com) for more detail regarding our climate change commitment as well as our approach to ESG, sustainability and responsible investment.

7. Environmental, Social and Governance (ESG)

MKAM, as an affiliate of the Macquarie Group (Macquarie) and in a capacity as a manager and corporate director of MKIF, has adopted ESG framework that Macquarie Infrastructure and Real Assets (MIRA) applies to its fund management activities to the extent relevant and possible. MIRA aims to improve the sustainability performance of portfolio companies by addressing material ESG issues and opportunities to enhance long-term value for our investors. MIRA addresses a broad range of ESG risks and opportunities throughout the entire investment lifecycle from screening and due diligence through to ongoing asset management and exit. MIRA also regularly collect a range of ESG data from portfolio companies, allowing us to track and support improvement of their ESG performance. ESG information is communicated to shareholders at least annually in fund reports and fund presentations. MKAM is committed to continuously improving our ESG performance and look forward to continuing to share our progress with investors.

Macquarie Asset Management (MAM) climate change commitment

As long-term investors in companies that underpin economies and communities, MIRA take our responsibility to address climate change risks seriously. As stewards of these vital businesses, MIRA have a duty to ensure they play their part in global efforts to address our warming planet.

Macquarie Group is supporting the transition to a low carbon economy by progressing a range of initiatives to mitigate climate change and adapt to its effects. On the fifth anniversary of the Paris Agreement, Macquarie Asset Management (MAM), which MIRA belongs to as one of its business group, announced a commitment to manage its global portfolio in line with net zero emissions by 2040.

The public commitment articulated our goal to implement Paris-aligned or net zero business plans at each of our fund portfolio companies by the end of 2022. This commitment has several steps that are already underway:

- measure greenhouse gas emissions of all portfolio companies;
- identify pathways to reduce emissions;
- develop business plans that contribute to a net zero economy by 2040, or sooner;
- for new investments, target completion of these steps within 24 months of acquisition;
- work with portfolio companies with the aim that they will be meeting their Paris-aligned/net zero emissions reduction pathways by 2030; and
- report on our progress annually.

This detailed commitment complements extensive activity across the broader Macquarie Group in developing and managing renewable energy projects, helping clients on their decarbonisation pathways, and adapting infrastructure for climate resilience.

MIRA look forward to working with our investors, portfolio companies, regulators and other stakeholders to achieve these transformational objectives for the benefit of all. MIRA remain grateful for these partnerships and MIRA welcome continued engagement as MIRA seek to play our part in building a more sustainable future for everyone.
