MKIF profile	MKIF, managed by MKAM, has the portfolio of infrastructure assets in Korea that have been, or are being, constructed under the Act on Public-Private Partnerships in Infrastructure (PPI Act). MKIF was established in December 2002 with a mandate to invest in entities that construct or operate infrastructure businesses such as toll roads, bridges and tunnels in Korea. MKIF invests in these infrastructure businesses through equity and debt. MKIF is focused on generating profits from its investments and distributing these profits to its shareholders.

* MKAM assessed MKIF risk level, the investment grade, at 4 in consideration of MKIF's target asset and associated risk. However, this is a subjective rating by MKAM and should not be recognized as an official rating by any external rating agencies.

^ See Section 4. Registered Asset Managers and Appendix I. MKIF Board of Directors for more information.

1.2 Asset Details

Under the Act, MKIF is required to report the net asset value per share (NAV per share) of its portfolio.

The total net asset value of MKIF's portfolio is calculated by subtracting total liabilities from total assets of MKIF. MKIF's assets include its equity and debt investments in concession companies, cash and deposits and other investment securities. The net asset value per share of MKIF is calculated by dividing total net asset value by the number of outstanding shares.

The Collective Investment Property Appraisal Committee of MKAM has chosen to adopt the acquisition cost as its assessment of fair value for the unlisted equity investments under the Act and accounting principles generally accepted in Korea (K-GAAP). In addition, the debt investments are measured at amortised cost under the Act and K-GAAP.

The calculation of the NAV per share of MKIF is set out in the table below. For the purposes of this calculation, asset and liability information is based on the balance sheet of MKIF, which is attached as Appendix II.

Type	Q2 2022	Q3 2022	% Change
Total Assets (A)	2,958,686,155,589	2,977,692,006,157	0.64%
Total Liabilities (B)	373,149,205,108	490,281,324,203	31.39%
Net Asset Value (C=A-B)	2,585,536,950,481	2,487,410,681,954	-3.80%
Shares (D)	404,845,547	404,845,547	0.00%
NAV per share (E=C/D)	6,386.48	6,144.10	-3.80%

+ NAV per share of MKIF is calculated by dividing total net asset value by the number of outstanding shares. However, as MKIF is listed on the Korea Exchange, its shares are traded at share price.

※ Distribution payment (during the first quarter)

(Unit: KRW, share)

Date of Declaration	Distribution Amount (KRW Million)	Balance after Payment (Shares)	NAV per share		Remarks
			Before declaration	After declaration	
2022-07-29	153,841	404,845,547	6,427.25	6,054.63	

2. Management Performance and Term Performance

2.1 Overview

Established on 12 December 2002, MKIF is a leading private sector infrastructure investor in Korea under the PPI Act and governed by the Act. MKIF is mandated to invest in concession companies that construct or operate infrastructure assets through equity and debt. MKIF is focused on generating profits from its investments and distributing these profits to its shareholders. As of 31 September 2022, MKIF has committed to invest in 13 toll roads, 1 light rail transit, 1 port and 2 city gas retail distributors with a total investment commitment of KRW 2,324.0 billion.

2.2 Management plan

MKIF is focusing on investments in loans to, and unlisted equity of, concession companies that operate infrastructure assets.

Target assets for infrastructure investment in Korea have historically been concessionaires operating toll roads, bridges, and tunnels, etc. Target portfolio company is an entity conducting facilities projects defined under Article 2 Sub-paragraph 1 of the PPI Act.

MKIF is to invest in entities that develop and/or operate Infrastructure Assets and to target to generate stable returns to our shareholders through capital growth and cash distribution.

2.3 Management performance

The table below sets out the historical NAV (including the distribution paid) for MKIF. As explained above and given that the majority of MKIF's assets are held at their acquisition cost, the net asset value is not representative of changes in the value of the MKIF portfolio.

9. Environmental, Social and Governance (ESG)

MKAM, as an affiliate of the Macquarie Group (Macquarie) and in a capacity as a manager and corporate director of MKIF, has adopted ESG framework that Macquarie Asset Management (MAM) applies to its fund management activities to the extent relevant and possible. MAM aims to improve the sustainability performance of portfolio companies by addressing material ESG issues and opportunities to enhance long-term value for our investors. MAM addresses a broad range of ESG risks and opportunities throughout the entire investment lifecycle from screening and due diligence through to ongoing asset management and exit. MAM also regularly collect a range of ESG data from portfolio companies, allowing us to track and support improvement of their ESG performance. MKAM is committed to continuously improving our ESG performance and look forward to continuing to share our progress with investors.

Macquarie Asset Management (MAM) climate change commitment

As long-term investors in companies that underpin economies and communities, we take our responsibility to address climate change risks seriously. As stewards of these vital businesses, we have a duty to ensure they play their part in global efforts to address our warming planet.

Macquarie Group is supporting the transition to a low carbon economy by progressing a range of initiatives to mitigate climate change and adapt to its effects. On the fifth anniversary of the Paris Agreement, Macquarie Asset Management (MAM) announced a commitment to manage its global portfolio in line with net zero emissions by 2040.

The public commitment articulated our goal to implement Paris-aligned or net zero business plans at each of our fund portfolio companies by the end of 2022. This commitment has several steps that are already underway:

- measure greenhouse gas emissions of all portfolio companies;
- identify pathways to reduce emissions;
- develop business plans that contribute to a net zero economy by 2040, or sooner;
- for new investments, target completion of these steps within 24 months of acquisition;
- work with portfolio companies with the aim that they will be meeting their Paris-aligned/net zero emissions reduction pathways by 2030; and
- report on our progress annually.

This detailed commitment complements extensive activity across the broader Macquarie Group in developing and managing renewable energy projects, helping clients on their decarbonisation pathways, and adapting infrastructure for climate resilience.

We look forward to working with our investors, portfolio companies, regulators and other stakeholders to achieve these transformational objectives for the benefit of all. We remain grateful for these partnerships and we welcome continued engagement as we seek to play our part in building a more sustainable future for everyone.
